ALUMINUM PRODUCTS INC

## INTRODUCTION

This catalogue was written to assist customers with ordering and receiving material from Ballew's Aluminum Products, Inc. Please take time to read through the entire catalogue.

## ILLUSTRATIONS

Illustrations are drawn for reference only and are not drawn to scale.

## THICKNESS

Thicknesses of material given are subject to industry tolerance.

## HELPFUL HINTS FOR ORDERING

The following tips will help in ordering and receiving material accurately and efficiently.

1. Confirm company name and delivery address.
2. Job name or purchase order number.
3. Ballew's shipping policy is the most direct route to avoid damage.
4. Normal shipping time is usually 2-3 days on Ballew's delivery truck or 5-7 days on a common carrier. Please allow several additional days during peak season. (April-October)
5. Please check the order confirmation carefully to insure all items are correct.

## SHIPPING AND RETURN POLICY

All shipments are FOB the nearest Ballew's facility. Common carriers will normally pick up orders within 5-7 days of order confirmation. The invoice and freight bill of lading will be mailed or e-mailed as soon as the shipment has left Ballew's dock.

Always inspect the shipment when it arrives. **REFUSE ANY MATERIAL IN THE SHIPMENT THAT IS DAMAGED AND NOTE IT ON THE SHIPPING PAPERWORK.** If there are any signs of damage, note it on the carrier's delivery receipt BEFORE signing and request that the carrier initiate an immediate "Damaged Freight Inspection Report". Sign only for what you received. Once the driver leaves the premises, all material in your possession is considered correct and in usable condition.

If a shipment is delivered on Ballew's own delivery truck, always check to insure that all material is accounted for and in good condition. Once the delivery ticket is signed, liability is no longer Ballew's Aluminum Products, Inc. **If no one is present to take delivery, the customer assumes all liability for shortage or damage.**

**ALL PAN STYLE UNITS ARE MADE TO SPECIFICATIONS AND ARE SOLD ON A NON-RETURN BASIS.**

## TERMS AND CREDIT PROCEDURES

1. All orders will be cashier's check, money order, or credit card until a check cashing agreement has been completed and approved.
2. To apply for an open account, request a credit application from the salesperson. Fill out the application in its entirety. Return to:

**BALLEW'S ALUMINUM PRODUCTS, INC.**  
**PO BOX 39**  
**REIDVILLE, SC 29375**

You may also e-mail back to the salesperson.

3. Terms are 1%10net30. (1% of invoice total may be deducted if paid within 10 days of the invoice date.) If payment is not received within 10 days, the discount will not be allowed.
4. Past due accounts will be charged 1½% of the unpaid balance per month. (Annual rate of 18%)
5. If an order exceeds the amount of available credit, the difference is to be paid prior to or upon delivery.
6. All returned checks will be subject to a \$25.00 collection fee and may result in the account being changed to a cash only basis until further notice.
7. Prices are subject to change without notice.
8. Visa, MasterCard, American Express, and Discover are accepted.
9. Direct bank transfers are accepted.
10. In order to insure that an account remains current and in good standing, please mail payments in time to be received on or before the due date.

## BALLEW'S MOBILE HOME ROOF-OVER SYSTEM

Ballew's roof-over system guards against the effects of water and wind damage, costly repairs bills, outside noise and high energy costs. This system triple seals the roof with three protective layers: two full inches of foam insulation, vent guard tape, and aluminum pans with a baked-on enamel finish.

No screws go into the top of the existing roof. The perimeter angle will be the only screws penetrating the home and these will be along the sides into the fascia board.

The typical mobile home roof provides an R-Value of 12.39. TWO FULL INCHES OF DOUBLE-BACKED STYROFOAM INSULATION CAN INCREASE THE R-VALUE TO 24.43.
